

# Search for an extra higgs decaying to $\mu^+\mu^-$

XYZ, ABC  
some insitute

December 16, 2017

- ① Introduction
- ② Some models
- ③ Summary

Why an extra higgs needed?

- Fermion mass hierarchy
- Dark matter candidate
- other

- 1 Standard Model: only one higgs (CP even)
- 2 SuperSymmetry Models: ...
- 3 2-Higgs-Doublet Models (2HDM): ...

model	description
SM	one higgs
SUSY	explain to fermion mass hierarchy
2HDM	predict big FCNCs

- 1 No extra higgs is found for the moment ...
